Who Is This Vendor Assessment For?

NelsonHall's next generation application outsourcing vendor assessment for Atos is a comprehensive assessment of Atos' next generation application outsourcing offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of IT services and identifying vendor suitability for cloud infrastructure migration and management services
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the cloud infrastructure migration and management sector.

Key Findings & Highlights

Atos was formed in 1997 as the result of a merger between French IT services firms, Axime and Sligos, with a focus on infrastructure management services. It is headquartered in Bezons, a northwestern suburb of Paris, France.

Following the 2011 acquisition of Siemens IT Solutions and Services (SIS), Atos' Systems Integration unit grew significantly to around 22k employees. The overall merged firm was, at the time, one of the top ten global IT services providers and the largest European IT Service provider.

In 2014, Atos merged its consulting and system integration into a single organization, Consulting & System Integration (C&SI).

Atos has developed the Atos Transformation Framework to support its clients' digital transformation initiatives. Within this broader framework, its next generation application outsourcing offerings are focused on four distinct areas: agile application development and DevOps, cloudification, application transformation, and application management automation and robotics.

Scope of the Report

The report provides a comprehensive and objective analysis of Atos' next generation application outsourcing offerings, capabilities and market and financial strength, including:

- Analysis of the company's offerings and key service components
- Revenue estimates
- Identification of the company's strategy, emphasis and new developments
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's strengths, weaknesses and outlook.

Contents
