## Who Is This Vendor Assessment For?

NelsonHall's Supply Chain Management Services Vendor Assessment for Infosys is a comprehensive assessment of Infosys' supply chain management service offerings and capabilities designed for:

- Supply chain and planning managers monitoring the capabilities of existing suppliers of supply chain services and identifying vendor suitability for outsourcing services
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the supply chain services sector.

## Key Findings & Highlights

Infosys SCM offerings are broken out into four main area which are pre-sales, sales, fulfillment and after sales.

Overlaying all of these services is the Supply Chain Control Tower, query management & customer support, and master data management.

Infosys also has a shop floor assessment & optimization (MES Service) offering which supports its clients in designing and implementing an MES service integrated with the company's ERP backbone, establishing efficient shop floor management for production orders and embedded logistics processes, quality management, and plant maintenance.

Infosys will continue to target SC planning and will focus on the hi-tech, CPG and telecom industries with a primary focus on the U.S. market, followed by Europe.

## Scope of the Report

The report provides a comprehensive and objective analysis of Infosys' supply chain management service offerings, capabilities, and market and financial strength, including:

- Analysis of the company's offerings and key service components
- Revenue estimates
- Identification of the company's strategy, emphasis and new developments
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's strengths, weaknesses and outlook.
