Who Is This Vendor Assessment For?

NelsonHall's Intelligent Automation Services in Banking Vendor Assessment for Quantiphi is a comprehensive assessment of Quantiphi's Intelligent Automation in Banking offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of intelligent automation processes and identifying vendor suitability for intelligent automation services RFPs
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the support services sector.

Key Findings & Highlights

Quantiphi was founded in 2013 to provide applied AI and data science services. It was founded by executives from the consulting and financial services industry. The initial focus was on solving business problems using AI and machine learning. The AI and ML solutions were delivered using cloud infrastructure, both on-premises, and off-premises. In 2016 the accelerated adoption by the industry of cloud delivery accelerated Quantiphi's growth. Today the company provides AI, ML, and data services to multiple industries. Quantiphi provides services to the BFS industry, with a concentration of clients in mortgage and loans.

Scope of the Report

The report provides a comprehensive and objective analysis of intelligent automation services offerings, capabilities, and market and financial strength, including:

- Identification of the company's strategy, emphases and new developments
- Analysis of the company's strengths, weaknesses and outlook
