## Who is This Vendor Assessment For?

---

NelsonHall's Process Discovery & Mining Technology Evaluation, provides an assessment of Signavio's process discovery & mining platform designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of Process Discovery & Mining platforms and identifying vendor suitability for RFPs
- Process reengineering and RPA and intelligent automation center of excellence personnel evaluating process discovery & mining platform capability
- Vendor marketing, sales, and business managers looking to benchmark their platforms against their peers
- Financial analysts and investors covering intelligent automation and process discovery & mining platforms.

## Key Findings & Highlights

---

Signavio offers Business Transformation Suite, a platform with components for business process transformation, including Process Intelligence (process mining), Process Manager (process modeling) and Process Hub (collaborative change management) that offers:

- Data extraction, transformation, and loading
- Process analysis
- Process improvement
- Process monitoring.

Signavio's approach to process mining is to provide a seamless transition between all aspects of process management, including process modeling and notation, data simulation, and a process dictionary concept. As such, the company claims that a team of ten process professionals can effectively display, innovate, and propagate insights to thousands of employees.

Signavio offers a per-user subscription model for modules of its platform.

Signavio's overall strategy for the next 12-18 months is democratizing Process Intelligence for everyone.
