Key Findings & Highlights

Syntel is an Indian-headquartered BPO provider to global enterprises.

As a result of changing regulations and cost pressures coming out of the global recession, retail banks need to aggressively pursue revenue growth from transaction-based businesses, such as payments. Retail banks are looking for help in building their MPS capabilities to address the draw in new customers. Syntel is seeing significant demand from all retail banks and merchants, particularly in countries and regions where costs are high (mature markets) or volumes are low (emerging markets).
