Who Is This Vendor Assessment For?

NelsonHall's Advanced Digital Workplace Services Vendor Assessment for Atos is a comprehensive assessment of Atos' digital workplace services offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of IT services and identifying vendor suitability for digital workplace services

- Vendor marketing, sales and business managers looking to benchmark themselves against their peers

- Financial analysts and investors specializing in digital workplace services.

Key Findings & Highlights

Atos provides digital workplace services predominantly through its Infrastructure & Data Management Services Division. These services are augmented with consulting and application services from the Business and Platform Solutions (B&PS) Division in areas such as design, consultancy, and some build services as well as advanced workplace security services through its Big-Data & Security (BDS) division.

Over the last 12 months, Atos has continued to focus on the employee experience, in the context of the overall employee workplace environment. This includes people (allowing employees to be more engaged and productive), places (smart buildings and offices), and platforms (technology). It is also developing its industry expertise and capabilities across DWS and building vertical offerings where it seeks to understand the personnel and industry needs and requirements, also bringing in vertical expertise and offerings from across wider Atos to complement DWS portfolio.

Scope of the Report

The report provides a comprehensive and objective analysis of Atos' digital workplace service offerings, capabilities and market and financial strength, including:

- Analysis of the company's offerings and key service components

- Revenue estimates

- Identification of the company's strategy, emphasis and new developments

- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts

- Analysis of the company's strengths, weaknesses and outlook.
