Who Is This Vendor Assessment For?

NelsonHall's Internet of Things profile on CSS Corp is a comprehensive assessment of CSS Corp's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of loT and identifying vendor suitability for security services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

Key Findings & Highlights

This NelsonHall vendor assessment analyzes CSS Corp's offerings and capabilities in IoT.

CSS Corp's current focus within IoT is on the management of IT infrastructure required for IoT, including managed security services, with less focus on the development of IoT applications and end to end solutions.

Scope of the Report

The report provides a comprehensive and objective analysis of CSS Corp's managed security services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments
- Analysis of the company's strengths, weaknesses, and outlook
- Revenue estimates
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's offerings and key service components
- Analysis of the company's delivery organization including the location of delivery locations.
