Who Is This Vendor Assessment For?

NelsonHall's GDPR profile on DXC Technology is a comprehensive assessment of DXC Technology's offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of managed security services and identifying vendor suitability for security services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

Key Findings & Highlights

This NelsonHall vendor assessment analyzes DXC Technology's offerings and capabilities in GDPR services.

DXC's GDPR compliance services provide an end to end offering from advisory to architecture, implementation, and management. Compliance services include:

- Advisory services – privacy by design, privacy improvement, and legal services
- Analytics Service – data portability and access, data minimalization, and erasure and rectification
- Security Services – data discovery, data protection, and data breach notification.

Before engaging with the client in professional services to assess the client's GDPR compliance such as data discovery, DXC examines the client's strategy, leadership, and governance with regards to GDPR. As part of this, DXC:

- Have the client appoint a DPO where required by GDPR
- Establish a GDPR program office
- Develop mission statements, objectives and policies for compliance with the regulation
- Map existing controls to GDPR
- Review third party activities for personal data exchanges and/or processing requirements
- Establish requirements for audit on GDPR compliance.
