Who is This Vendor Assessment For?

NelsonHall's "Global HRS Market Forecast: 2024-2028" report is a comprehensive market forecast report designed for:

- Sourcing managers monitoring the business process services (BPS) industry and seeking to identify leading vendors for shortlists and RFPs
- Executives seeking assistance in identifying levels of BPS vendor presence by service line and geography
- Vendor marketing, sales, and business managers looking to identify market sizes and growth rates and their market share relative to their peers
- Financial analysts and investors specializing in the support services sector.

Key Findings & Highlights

The full breakdown of NelsonHall's BPS market forecast and vendor market shares across 81 BPS service lines, 39 geographies, and 39 industry sectors can be obtained via [NelsonHall's Self-Service Forecast Tool](#).

This self-service tool aims to assist executives in accessing the precise combinations of market size, growth, and vendor share information they require rapidly and cost-effectively, supporting more informed decision-making.

In particular, the "[NelsonHall Self-Service Market Forecasting tool](#)" enables executives to tailor the scope of any market forecast or vendor market share download by selecting one or multiple service lines, geographies, and industry sectors and downloading market size, growth, and vendor share information against these parameters. Furthermore, decision-makers are no longer inconvenienced by delays in the manual production of customized reports on their behalf.

Operational transformation is still at the forefront of business thinking.

Overall, organizations' current operating models and processes are regarded by executives as inadequate to support the organization's strategy in 63% of organizations, with 93% of executives regarding operational transformation as highly important to their organizations...

Scope of the Report

The report provides a forecast for the global BPS outsourcing market overall and by geography and service line. It covers the following:

- The BPS market size for 2023 and the forecast for the business process services market through 2024 to 2028
- The business process services market sizes and forecasts for North America, specifically covering the U.S. and Canada; EMEA, specifically covering U.K., France, Germany, and Italy; Asia Pacific: and Latin America
- The business process services market sizes and forecasts by service line
- The business process services market sizes and forecasts by combinations of service line and geography
- Vendor revenue shares for 2023 by service line and geography.

About The Author

John is CEO of NelsonHall, the leading business process services (BPS) and IT services (ITS) research and analysis firm, and is widely regarded as one of the world's leading authorities on achieving business transformation through the application of BPS.

John is well-known around the world for his detailed analytical approach to research, and his pragmatic style. He founded NelsonHall in 1998 on the principle that genuine market insight can only be derived from a bedrock of hard, empirical facts drawn from original market research, and this philosophy persists to this day, making NelsonHall one of the most highly valued global research firms.
