Who Is This Report For?

NelsonHall's "Global Document Management Market Forecast: 2015-2019" report is a comprehensive market forecast report designed for:

- Sourcing managers monitoring the document management and managed printer services (MPS) industry and identifying vendor suitability for shortlists and RFPs
- Executives seeking assistance in identifying levels of document management and managed printer services vendor presence by service line and geography
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the support services sector.

Scope of the Report

The report provides a forecast for the global document management business process services market overall and by geography and by service line. It covers the following:

- The document management BPS market size for 2014 and the forecast for the document management BPS market through 2015 to 2019
- The document management BPS market size and forecast for North America, specifically covering the U.S. and Canada; EMEA, specifically covering U.K., France, Germany, and Italy; Asia Pacific and Latin America
- Identification of the leading vendors together with their revenues and market shares by geography.

Key Findings & Highlights

NelsonHall's "Global Document Management BPS Market Forecast: 2015-2019" consists of 18 pages. It is a comprehensive forecast of the document management BPS market and is complemented by NelsonHall's self-service forecasting facility which enables users to download forecasts and vendor shares tailored to their needs across any combination 40 geographies, and 30 industry sectors.

The document management market continues to be impacted by the reduced emphasis on paper and increasing emphasis on use of digital media and especially smart phones.

However, this increasing adoption of digital and mobile as the preferred means of communication is creating opportunities for paper conversion to digital and for scan-on-demand services in support of existing paper archives and for digital mailroom services.

Contents
