Who is this Vendor Assessment for?

NelsonHall's Learning Platforms profile on Invince is a comprehensive assessment of Invince's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of learning platforms and identifying vendor suitability for learning platform RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the learning platform sector.

Key Findings & Highlights

Invince, formerly UpsideLMS, is a learning technology company enabling organizations to manage their online, offline, formal, informal, and mobile learning in an efficient, easy, and effective way. Invince, originally part of Upside Learning (established in 2004), now operates as a separate technology business. Invince offers a Learning Management System (LMS), UpsideLMS, and support services to organizations worldwide. It is headquartered in Pune, India.

Invince's learning ecosystem (UpsideLMS and Plethora Curated Content platform) continues to evolve towards becoming an LMXP. The platform has proprietary functionality-specific modules (created/curated content, compliance, competency management, informal learning, gamification, reporting/analytics, and eCommerce). Its roadmap prioritizes AI/GenAI features and becoming a skills-based end-to-end learning solution.

Organizations wanting a cloud-based SaaS LMS platform with LXP features and functionality for employee pre-boarding/onboarding, compliance training, sales enablement, talent development (skilling), and extended workforce training should note this profile on Invince.
