### Who is This Market Analysis For?

NelsonHall's "Operational Transformation Pressures & Initiatives – Healthcare Provider" report assists organizations in understanding the operational transformation requirements and initiatives of the healthcare provider sector.

This report is an analysis of the results from a survey of 60 healthcare provider enterprises carried out by NelsonHall.

The report is designed for:

- CXOs within the healthcare provider sector looking to understand developments within the sector and the operational transformation and BPS initiatives planned by their peers
- Vendor marketing, sales, and business managers wishing to understand the initiatives needed by the healthcare provider sector
- Financial analysts and investors specializing in the services sector who are looking to understand the operational transformation pressures and initiatives within the healthcare provider sector.

### **Key Findings & Highlights**

NelsonHall's analysis of Operational Transformation & BPS Requirements for Healthcare Provider enterprises consists of 24 pages. The report identifies that:

- Less than two fifths of enterprises believe their operating models and processes are adequate to support the organization's strategy in business-critical areas such as population health management and patient administration
- Operational transformation is highly important to 87% of healthcare provider companies
- The current economic environment is increasing healthcare provider companies' needs for automation of manual processes and operational cost reduction.

This report is one of a series of detailed individual sector reports on operational transformation published by NelsonHall.

## **Scope of the Report**

The report analyzes the operational transformation requirements and initiatives of the healthcare provider sector and covers:

- Assessments of the adequacy of current operating models and processes to support the organization's business strategy
- The level of need for operational transformation overall and by process
- The benefits sought by healthcare provider companies from operational transformation
- The operational transformation initiatives planned by healthcare provider companies
- The extent to which healthcare provider companies will adopt standalone transformation vs. outsourcing as a transformation enabler
- The key technology-related transformation initiatives planned.

The sectors covered in this series include:

- Banking
- Life & health insurance
- P&C insurance
- Healthcare Provider
- Energy
- Utilities
- High-tech
- Automotive

The regions covered include:

- U.S.
- U.K.
