## Who Is This Vendor Assessment For?

NelsonHall's GDPR Services profile on Secureworks is a comprehensive assessment of Secureworks' offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of GDPR services and identifying vendor suitability for GDPR services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

## Key Findings & Highlights

This NelsonHall vendor assessment analyzes Secureworks' offerings and capabilities in GDPR services.

Secureworks' services for GDPR are primarily focused on initial advisory and on providing managed security services (including, endpoint and vulnerability management) and incident response services.

- In its consultancy services for GDPR, Secureworks has a four-step approach:
- 'Know your data', to understand and identify the scope of GDPR data security requirements, specific to the client
- Analyze the current state of security controls, identifying gaps in compliance
- Build the program to select the best people, process, and control strategies to meet the GDPR data security requirements
- Test, operate, and manage security controls, primarily managed security services, testing and incident response service.

## Scope of the Report

The report provides a comprehensive and objective analysis of Secureworks' GDPR services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments
- Analysis of the company's strengths, weaknesses, and outlook
- Revenue estimates
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's offerings and key service components
- Analysis of the company's delivery organization including the location of delivery locations.
