## Who is This Vendor Assessment For?

---

NelsonHall's cloud infrastructure brokerage, orchestration, and management services profile on Sopra Steria is a comprehensive assessment of Sopra Steria's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of digital services and cloud infrastructure brokerage, orchestration, and management services and identifying vendor suitability for RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

## Key Findings & Highlights

---

This NelsonHall vendor assessment analyzes Sopra Steria's offerings and capabilities in cloud infrastructure brokerage, orchestration, and management services.

Sopra Steria has developed a comprehensive range of services, best practices, tools, and IP in support of cloud services, across five key initiatives which include:

- Sopra Steria digital & cloud CoE: with ~3k SMEs supporting next-generation technologies
- Sopra Steria DigiLabs: created a network of 24 innovation centers globally supporting lean, agile, low-code, no-code services, and AI-powered software and development
- Sopra Steria strategic alliance and ecosystem: investing in capabilities with CSPs and technology providers (i.e., AWS, Azure, GCP, VMware/Pivotal, and IBM RedHat) supporting public, hybrid, and private cloud-based solutions. It includes API, microservices, serverless and opensource
- Sopra Steria Digital Enablement Platform: significant investment in improving the productivity of development and operations teams through agile, DevSecOps, and automated environments including AIOps, NoOps, and security by design
- Sopra Steria DigiBoosters: includes a portfolio of turnkey solutions including interactive, IoT, blockchain, data, analytics, AI, and ML to help clients accelerate their solutions.

## Scope of the Report

---
