Who Is This Vendor Assessment For?

NelsonHall's Cloud Infrastructure Brokerage & Orchestration Services Vendor Assessment for Sopra Steria is a comprehensive assessment of Sopra Steria's cloud infrastructure brokerage & orchestration services offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of IT services and identifying vendor suitability for cloud infrastructure brokerage & orchestration services
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in cloud infrastructure brokerage & orchestration services.

Key Findings & Highlights

Sopra Steria has developed a cloud brokerage & orchestration platform, a mix of IP and third-party tools providing a persona-based approach for end-users to access services through a self-serve portal with catalog for provisioning and cloud services. The key focus for Sopra Steria is on the orchestration of cloud services in a multi-cloud environment as opposed to acting as a cloud broker. All services can be accessed through a DevOps model, or directly from the portal.

Scope of the Report

The report provides a comprehensive and objective analysis of Sopra Steria's cloud infrastructure brokerage & orchestration service offerings, capabilities and market and financial strength, including:

- Analysis of the company's offerings and key service components
- Revenue estimates
- Identification of the company's strategy, emphasis and new developments
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's strengths, weaknesses and outlook.

Contents
