

## Process Discovery & Mining Technology Evaluation

# **UiPath**

## **Report Abstract**

May 2020

Bailey Kong

Digital Technology Analyst NelsonHall

13-pages

## **Contents of Full Report**

- 1. Background
- 2. Revenue Summary
- 3. Key Offerings
- 4. Delivery Capability
- 5. Target Markets
- 6. Strategy
- 7. Strengths & Challenges
- 8. Outlook

#### Who is This Vendor Assessment For?

NelsonHall's Process Discovery & Mining Technology Evaluation, provides an assessment of UiPath's process discovery & mining platform designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of Process Discovery & Mining platforms and identifying vendor suitability for RFPs
- Process reengineering and RPA and intelligent automation center of excellence personnel evaluating process discovery & mining platform capability
- Vendor marketing, sales, and business managers looking to benchmark their platforms against their peers
- Financial analysts and investors covering intelligent automation and process discovery & mining platforms.

### **Key Findings & Highlights**

UiPath offers Task Mining and Process Mining, two separate products that include:

- Data collection, extraction, transformation, and loading
- Process analysis
- Process improvement
- Process monitoring
- Corrective action enablement.

UiPath supports both business data (process mining) and user interaction data (task mining). To collect user interaction data, UiPath Task Mining has a desktop observer tool that can passively record user interactions on the desktop. UiPath Process Mining supports IT system data (e.g., Salesforce, SAP, Microsoft Dynamics) through pre-built connectors and files.

AppOne, UiPath's out-of-the-box template for UiPath Process Mining, supports concept dashboarding.

UiPath only having acquired the Netherland-based ProcessGold company in the past year, is aiming to scale up the adoption of UiPath Process Mining within its existing client base.

## **Scope of the Report**

The report provides a comprehensive and objective analysis of UiPath's process discovery and mining capabilities, covering Process Mining and Task Mining products' functionality for:

- Data collection, extraction, transformation, and loading
- Process analysis
- Process improvement
- Process monitoring
- Corrective action enablement
- Administration.

This report also assesses UiPath's product development strategy and strengths and challenges.
